

## Alexander Burkhard

Project Leader

---

lic.rer.pol. (UniFR)

Alexander Burkhard works as a senior consultant for energy suppliers and public administrations on business management issues at Hanser Consulting AG.

Alexander Burkhard focuses on supporting energy suppliers in developing future-oriented strategies tailored to the extensive changes in the energy market. Together with technical experts, he developed innovative tools for cost accounting and pricing in the electricity market. Alexander Burkhard also designs practical training courses for the Association of Swiss Electricity Companies (Verband Schweizerischer Elektrizitätsunternehmen, VSE). He is recognised in the energy sector as a knowledgeable expert on regulatory processes and the Swiss market model.

Between 2001 and 2005, Alexander Burkhard worked for BKW Energie AG as a business consultant in strategic sales services. He then moved to Galexis AG in the pharmaceutical wholesale sector, where he was responsible for pricing until 2008. After that, he worked as a senior consultant in the energy sector at Eichenberger Beratung & Unterstützung. Alexander Burkhard has been a senior consultant at Hanser Consulting AG since 2017.
