

Sophia Heine

Trainee

M.Sc. in Business Administration (UFR)

Sophia Heine has been supporting the Hanser Consulting AG team as an intern since August 2025. Her work focuses on supporting the implementation of regulatory processes in the energy sector.

During her studies in Germany, she worked in strategy and relationship management at a public company, where she gained experience in developing strategic concepts and collaborating with various stakeholders. In addition, she supported infrastructure projects at an engineering office and gained in-depth insights into regulatory issues at the municipal and regional level. Most recently, she worked at the Fraunhofer Institute for Solar Energy Systems and was involved in research and development projects on climate-neutral heating supply.
