

Christian Schlatter

Project Leader

Master of Science ETH in civil engineering
Master of Arts UniFR in Business Administration

Christian Schlatter has been with Hanser Consulting AG since 2022. He advises public administrations, institutions and companies on technical, economic and managerial issues and also works on projects in the fields of tourism and transport infrastructure. Moreover, he deals with questions of location promotion and works for the Graubünden Economic Forum.

Christian Schlatter completed his bachelor's and master's degree in civil engineering with a focus on transport systems as well as hydraulic engineering and management at the ETH Zurich. During his last professional position, he completed a second master's degree in business administration with a focus on NPO management, accounting & control and marketing at the University of Fribourg over a period of four years.

Before joining Hanser Consulting, Christian Schlatter was Managing Director of the KPZ Fahrbahn, a small enterprise providing technical advice on the subject of train tracks. Prior to that he had several years of professional experience in the infrastructure division of the Swiss Southeast Railway. In both positions, he dealt intensively with questions of organizational development, strategic, technical and operational asset management and planning approvals.

Due to this wide work experience, Christian Schlatter has a wide network among railway companies, in politics and governmental bodies in Switzerland. In addition, he has been a member of the Zürcher Oberland Steam Railway Association for many years and is active there as a federally recognized fireman, Head of Marketing and part of the association's board.
